

JUST FINE

Convoy International, the Australian Distributors for Monster Cable, has developed a 1080i SCART to Component Video Cable constructed from a fine-stranded centre conductor. It features high conductivity, low signal loss and degradation, low electric resistance and good signal transmission. The cable uses Monster's Video 2 grade video cable technology and all connections are made with 24k gold connectors to maximise signal transfer plus resist corrosion. The cable is compatible with digital cable/satellite TV – 720p/1080i (please note Component to SCART is not rated to Full HD- 1080P)
